Aspiring Frontend Developer — JavaScript • React (Learning) • Tailwind CSS
Open to internships & junior developer roles

Professional Summary

Hi! I'm Ashwin, an enthusiastic and motivated frontend developer with a hands-on approach to learning and building. Though I come from an electrical engineering background, I've independently pursued web development through online courses and hands-on projects. I've built several responsive websites using HTML, CSS, and JavaScript. I'm currently learning React.js and Tailwind CSS to create more dynamic and interactive user experiences. I love solving problems, working on real-world projects, and learning something new every day.

Technical Skills

- **Languages:** HTML5, CSS3, JavaScript
- **Frameworks/Libraries:** React.js (learning), Bootstrap, Tailwind CSS, Material UI
- **Developer Tools:** Git, GitHub, VS Code, Chrome DevTools, Netlify

Projects

- **React Portfolio Website (learning project)** – A personal portfolio built with React.js and styled using Tailwind CSS. Fully responsive and deployed on Netlify. [GitHub]
- **E-commerce Website (Frontend) (learning project)** – In progress. A dynamic online store built with React.js and integrated with fake store API. Features product listings, filters, and a cart system. [GitHub]
- **To-Do App** – A task management app where users can add, edit, and delete tasks. Built using plain JavaScript to understand DOM manipulation. [GitHub]
- **Weather App** – Fetched real-time weather data using OpenWeather API. Built to strengthen API handling and async JS. [GitHub]
- **Landing Page Clone** – Recreated a modern website landing page with Flexbox and Grid layout techniques to practice UI design. [GitHub]

Education & Background

Diploma in Electrical and Electronics Engineering
SCT College   *2021–2023*

ITI – Electrical
MOITI Institution   *2018–2021*

Certifications

- Responsive Web Design – freeCodeCamp (2024)
- JavaScript Bootcamp – Udemy (Expected: July 2025)
- Frontend Internship Program – MentorHint (Expected: Aug 2025)

Strengths

- Curious and fast learner
- Strong attention to detail
- Comfortable with debugging

- Good team player and communicator
- Always open to feedback and growth

Languages

- English – Professional Proficiency
- Tamil, Kannada, Hindi – Native Fluency

Goals for 2025

- Learn React.js thoroughly and build dynamic UIs
- Start learning TypeScript and Next.js
- Master animations with Framer Motion (planned)
- Deploy personal portfolio and contribute to open source
- Explore UI/UX Design and Design Systems
- Contribute to Open Source and Web Accessibility (a11y)
- Build and iterate on meaningful side projects
- Learn full stack development
